

You're taking home an **opioid**.

TAKE  
**NALOXONE**  
HOME, TOO.

#HAVE IT  
**ON HAND**

IT COULD **SAVE A LIFE**

# OVERDOSE DEATHS CAN HAPPEN TO ANYONE.

Most are accidental. With **Naloxone (Narcan)**, you can reverse the effects of an opioid overdose.

- **Not habit-forming**
- **Does not provide a high**
- **Available without a prescription**

Having Naloxone in your medicine cabinet is as smart as having a fire extinguisher in your kitchen.

#HAVE IT  
**ON HAND**
